A Pretty Good Story.

THE CALF'S TAIL AND THE AUGER HOLE .- The North Carolina Argus tells the following capital story, for which it is indebted to the stump speech of a Virginin member of Congress. We have read nothing that has called our cachinatory muscles more riolently into play, for a long while :

The proprieter of a tan-yard adjacent to a certain town in Virginia, concluded to build a stand, or a sort of a store on one of the main streets, for the purpose of vending his leather, buying raw hides and the like. After completing his building, he began to consider what sort the following good advice towards sproan anger-hole through the door post, and stock summer and winter. It promotes their appetite, and tends to keep them honorable man nor a modest woman in a healthy condition. and addressed the individual:

"Good morning," said he. "Morning," said the other, without it with potatoes and meal. moving his eyes from the sign.

"You want to buy any leather ?" said the store keeper.

"Do you wish to sell hides ?" "No."

"Are you a farmer ?" "No."

"Are you a merchant ?"

"Are you a lawyer ?"
"No."

"Are you a Doctor ?" "No."

"What are you then ?"

"I'm a Philosopher. I have been those that are idle. standing here for an hour, trying to see if I could ascertain how that calf got through the auger hole, and I can't make it out, to save my life."

"Look out, old man, or you will see it's singular, at every fresh call it makes, The moment friendship becomes a tax. trouble—I doubt if your wife was ever how very few persons it finds at home!

Making a Needle.

I wonder if any little girl who may read this, ever thought how many people are all the time at work in making the things which they every day use -What can be more common, and, you may think more simple than a needle? Yet if you do not know it, I can tell you before known of any Medicine. that it takes a great many persons to make a needle; and it takes a great deal INVALIDS, READ AND JUDGE FOR YOURSELVES make a needle; and it takes a great deal of time, too. Let us take a peep into a needle factor. In going over the premises, we must pass hither and thither, and walk into the next street and back again, and take a drive to a mill in order to see the whole process. We find one chamber of the shop is hung round with coils of bright wire, of all thicknesses, from the stout kinds used for codfish hooks to that for the finest cambric needles. In a room below, bits of wire, the length of two needles, are cut by a vast pair of shears fixed in the wall. A bundle has been cut off, the bits need straightning, for they come off from coils.

The bundle is thrown into a red-hot

The bundle is thrown into a red-hot furnace; then taken out, and rolled backwant and forward on a table until the GAME LAWS .- Game, according to law, wires are straight. This process is called includes hares, pheasants and few others; "rubbing straight." We now see a mill

very little baby dressed up in his very long Sunday clothes, that it was like a sixpence tied in the corner of a pocket handkerchief? God made man an agriculturist; while

in a state of innocence his first bus was to till the soil. There is no excuse for the farmer who

neglects to provide his family with lexnries so cheap as fruit. Be not the fourth friend of him who

AYER'S

before known of any Medicine.

"Sir: I take pleasure in adding my testimony to the efficacy of your medicines, having derived very material hencelit from the use of both your Pectoral and Cathartic Pills. I ash never without them in my family, nor shall I ever consent to be, while my means will pascure them."

ever consent to be, while my means will procure them."

The widely renowned S. S. STEVENS, M. D., of Wentworth, N. H., writes:

"Having used your Cathabric Pills in my practice, I certify from experience that they are an invaluable purpative. In cases of disordated functions of the liver, causing headache, indigestion, contiveness, and the great variety of diseases that follow, they are a surer remody than any office. In all cases where a purgative remody than any office. In all cases where a purgative remody in required, I confliciently recommend these Pills to the public, as apperior in any other I have ever found. They are sure in their operation, and perfectly ask—quanties which make them an invaluable article for public use. I have for many years known your Cherry Perforal as the best Cough resilicine in the world; and these Fills are in no wise inferior to that admirable preparation for the treatment of diseases."

"Actes, Me., Nov. 25, 1853.

"Ds. J. C. Argy — Dear Sir: I have been efficied from my birth with serofials in its worst form, and now, after twenty years' trial, and an untold of amount of suffering, have been completely eneed in a few works by your Pills. With what feelings of tejocine to the can only be imagined when you realize what I have suffered, and how long.

"Never until now have I been free from this loathsome disease in some shape. At times it attacked my eyes, and
